Hongkong, August 1, 1894. Krating's Lozenges."

KEATING'S LOZENGES." "A SIMPLE FACT ABOUT" KEATING'S COUGH LOZENGES. Ask throughout the world, in any country that can be named, you will find them largely sold. There is absolutely no remedy that is so speedy in giving relief, so certain to cure, and yet the most delicate can take them.

A TERRIBLE COUGH." A TERRIBLE COUGH."

"94, Commercial Road, Peckham, July 12.

"Dear Sir,—I am a poor hand at expressing my feeling, but I should like to thank you. Your lozenges have done wonders in relieving my terrible cough. Since I had the operation of 'Trachetomy' (the same as the late Emperor of Germany, and unlike him, thank God, I am still alive) performed at St. Bartholomew's Hospital no one could possibly have had a more violent cough; it was so bad at times that it quite exhausted me. The mucus, which was very copious and hard, has been softened, and I have been able to get rid of it without difficulty.—I am sir, yours truly, J. H.I.A.

UTTERLY UNRIVALLED. UTTERLY UNRIVALLED.

The above speaks for itself. From strict inquiry it appears that the benefit from using Keating's Cough Lorenges is understated. The operation was a specially severe one and was performed by the specalist, Dr. H. T. Butlin, of St. Bartholomew's Hospital. Since the operation the only means of relief is the use of these Lorenges. So successful are they that one affords immediate benefit, although from the nature of the case the throat irritation is intense.

WEIGHT IN GOLD. WEIGHT IN GOLD. Under date Sept. 8th, 1801, Mr. Hill again writes:
"I should long since have been dead, but for your.
Lozenges—they are worth their weight in gold. I will gladly see and tell anyone what a splendid cough re-

The Rangoen Gazette publishes the following telegram dated Allahabad, lat August : -The divorce case of Beddy v. Beddy and Denver is proceeding in the District Judge's Court at Agra. The Manager of Laurie's Hotel, Aliahabad, gave evidence that on the 6th March Captain Beddy and Miss Cissy Denver, under the name of Miss Baker, occupied adjoining rooms in the hotel with a door of communication between them. Letters from Miss Denver to Captain Beddy were read; one beginning Darling Frank' and signed your trus wife.' Passages in this letter are unfit The above can be sown now and next for publication. Among other witnesses examined was Captain Beddy's bearer, who gave evidence of Captain Baddy pushing and slapping Mrs Beddy.

> Since the advent of the Plague [into the Colony of Hongkong] a warm discussion has arisen between the Sanitary Board and the Coloniel P.W.D. on the Drainage System, and a thorough i vestigation is being made as to the suitability of the scheme introduced. The scheme in question is a combined system of two schemes, the Separate System recommended by Messra Chadwick and Price, and a new sohome said to be diametrically opposed to | Tax Baluchistan Petroleum Fields, which the former, introduced by Mr Cooper, Director, P.W.D. After having practically completed the works at an enormous expenditure, it is now said that this system of drainage is unsuitable for Asiatics. Besides this controversy, the question of the responsibility for maintaining the Colony in a sanitary condition has been up before his club Committee for trying referred to Government. From what we what he called a putt on the green. The can learn the present 'Split' can tend to to good, and we think there are good playing for an end pocket with a white reasons to find fault with a drainage scheme billiard ball and an inverted curve hundled which has been middled and name billiard ball and an inverted curve hundled while several other members and which has been muddled and never hitherto 1249 Bried .- Indian Engineering.

We have received a copy of the medical reports published by the Chinese Imperial Maritime Customs. The present issue brings the reports down to 30th September, 1891. Dr Cantlie, Hongkong, has a contribution on 'Mr J. T. Roe's Theory that

THE British four-masted barque Bidston Hill arrived to-day from Shanghai to load for New York. She met adverse winds just outside of Hongkong, but was not in any trouble whatever, and the report of her being picked up disabled was quite un-

Un Wal Pang was sent to gaol to-day by Mr Wodehouss for six months, for trying to bully Chinese women into paying him money, first on the pretext of a big !josspidgin' and secondly on the ground that he was a Government official authorised to destroy cubicles (or extert money to save them from destruction).

THE Police Court records show an unmistakable increase in the rogue and vagabond class in the Colony of late. A specimen of the gentry in question was found at 4 s.m. to day inside a locked bedroom near the Ko Shing theatre, having evidently climbed over the partition. He was arrested and brought before the Magistrate to-day, the AMERICAN MAIL of July 26, left when he protested that he only went in to Yokohama on Tuesday, Aug. 14, at take refuge from some men who were pursuing him. He is in safety now for four

the Colony who have taken the trouble to wade through the letters that have been appearing in our morning contemporary from the pen of that respected resident, Mr G. Sharp. We must confess that we are not of the minority. But this morning a reference to ourselves caught our eye and induced us to glance through ' No. 10 of the series, which threatens to flow on as perenuially as " Tennyson's Brook." We have no serious intention of entering upon a controversy with Mr Sharp. Only one thing it may be desirable to call attention to as showing upon what filmsy material Mr Sharp bases his arguments. Referring to Dr Kitasato's 'valuable report on the plague in Hongkong, the letter-writer says: 'He (Dr Kitasato) does not advocate any such measure as the wholesale destruction of ten acres of houses and streets, but recommends that the floors and rooms of infected buildings be cleaned with lime water or carbolic acid. By the simplest expedients the greatest ends are oftentimes accomplished.' Mr Sharp then proceeds to base a long argument on this view of Dr Kitasato's report. He overlooks the fact, purposely or otherwise, that the report is a first report -it is essentially the Preliminary Notice of the bacilius of Bubonic Plague'-amplified somewhat-which was printed in the China Mail Office for Dr Kitasato shortly before he left for Japan. It does not purport to be a final pronouncement on the plague at all. It was in view 'A CHINAMAN' ought to know that we do of the indefiniteness of this ! Preliminary not publish anonymous contributions. As Notice' that a representative of the China a warning to him and others who may feel Mail interviewed Dr Kitssato, the day betempted like old Wegg to drop into poetry fore he embarked for Japan, in order to secertain what recommendations he would make regarding the plague-infected area of Hongkong. We give from that interview the paragraph bearing directly on the point at issue, and would only add that it is evident Mr Sharp, who at one time refers to the Taipingshan basin. and at another to Taipingshan being elevated, has still a good deal to learn about Taipingshan and still more about Dr Kitasato's recommendations :-Can you express an opinion on the course

that ought to be adopted in Hongkong ?-I am most emphatically of opinion that the ensanitary parts of the city must be completely wiped out of existence, every house destroyed, and the infected surface soil and the deeper soil saturated by faulty drains must be cleared right away, removed from the spot entirely. The buildings must be reconstructed with cereful attention to hygienic requirements, and overcrowding and filthy domestic practices must be rigorously prohibited. If this is done, there will be no chance for the bacillus to find a home here again. If, however, the filth is allowed to continue, or the impregnated buildings and soil are sllowed to remain. the plague is certain to break out again quite as badly as ever; it might happen again this year, this summer. I am oulte certain that it may be fully se bad as before. The disinfection that has taken place would, of course, make a difference, but not permanent; the work must be carried out, or else the Chinese returning from injected places on the mainland will start a fresh outbreak here. That is, if the filth is not totally destroyed, and prevented for the future.

THE CHINA-JAPAN WAR.

THE WEI-HAI-WEI AFFAIR. We received the following telegram too late for publication last night :-

At midnight on Thursday, 9th instant, Polinineteen Japaneseemen-of-war approached Wei-hai-wei, having left Cores on the 7th inst. The Japanese fleet sent out a flotilla of terpede boats, apparently for reconneitring purposes, and they exchanged fire with the Chinese forts. Finding the Chinese floot was not in Wei-hai-wei the Japanese men-of-war returned to Corean waters.

JOTTINGS FROM CANADA. ANTIQUARIAN AND PHILOLOGICAL RE-SEARCHES.

One of the first things that struck me on my arrival in Victoria was the resemblance of the Indian squaws, or Klutchmen as they are locally called, to the women of Mongolis. It was also remarkable how like to Japanese dressed in European clothes were the Indian men, or Siwashes as they are locally called, especially when wearing the same ungraceful garments. I mentioned this matter to the Rev. J. Endicott Gardner, of the Methodist Mission, Victoria, stepson of the well-known Mr Vrooman. of Cauton, and was informed by him that a Japanese or Chinese 'copper fan ' had recently been excavated in Government Street at a depth of ten feet and from a spot which had apparently never been disturbed before. This 'fan' had, he said, been cent to the British Museum. As the gentleman, Mr Wilson, who had found it, lived hard by. we went to interview him, and discovered that the supposed 'fau' was still at his country residence. Thither we all repaired, The object excavated turned out to be a copper fan-shaped mirror, such as are at then describes shop signs, which this day sold at the Haku-ran-kwai in Osaka for their weight in copper
